Issued June 9, 2011

Number SO-11-02

This CertAlert pertains to:
All 14 CFR part 139 Airport Operators
Attention: Airfield Operations Department

Hurricane Field Condition Report

June 1st marked the beginning of hurricane season. During times of emergencies, the FAA and other government agencies need to know the status of your airport. We need this information to respond to the event and provide you our support. Procedures for reporting information to us will be the same as we did last year. Attached is a Hurricane Field Condition Report form that you can use to email or fax information to us. In the event you cannot use email or do not have access to a fax machine, you may report information to us by telephone at one of our phone numbers listed on the "How to Report" attachment.

Additionally attached is a contact information sheet that we update during our annual inspections. We developed this contact sheet since communications are not always possible during a hurricane or other emergencies.

If your telephone numbers or personnel have changed recently and your inspection was held anytime between October 2010 and April 2011, please fill out another contact information sheet and email it back to us as soon as possible so we can update our records.

Thank you for your cooperation.
